REPLACEMENT TRANSMITTER

Model 7151X, 5 Button, Stealth Code Remote

1. Ignition ON: Place the key into the ignition and turn to the ON position or start the engine.

2. Enter PIN number: Enter your PIN number using the Plainview 2 valet switch.

   Note: The Factory default PIN number is written on the back of the system owner's guide.

3. Press/hold/release: Immediately PRESS and HOLD the * button until you hear one chirp and the Status LED turns on, then RELEASE the * button.

4. PRESS/RELEASE: PRESS and RELEASE the "blank" button once. Pause until you hear one chirp.

5. PRESS/RELEASE: PRESS and RELEASE the * button once. The siren will chirp once as you push the button.

6. TRANSMIT: Press the button on you new transmitter. The siren will chirp once to confirm it has received the transmission.

7. TRANSMIT again: Press the button a second time. The siren will chirp twice to confirm it has learned your new transmitter.

8. IGNITION OFF: Turn the ignition off and remove the key: The alarm will chirp three times to indicate exiting transmitter learn routine.

9. TEST TRANSMITTER: Press the button to verify that the transmitter is operating the alarm system.

   Note: This transmitter auto-learn routine is applicable to specific system/transmitter combinations, use the following reference guide or consult your local Clifford dealer for your particular application
