Overview

This application is for a class 2 permissive change for a limited modular approval of previously certified module FCC ID: F4AWLNG1, which has a single modular approval with the FCC. This application allows the radio module model WLRG-RA-DP101 to be used installed in the Hewlett Packard Handheld sp400f All in One Scanner. A new chip antenna will be used. No other modifications have been made to the radio. The reports from Northwest EMC, Inc. contain test results showing continued compliance of the radio module.

No. Application did not request confidentiality.

A letter listing the applicable modular requirements was submitted.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
