

B&B Electronics
707 E Dayton Rd
Ottawa, IL

B&B Electronics has performed the following permissive change to product Airborne WLAN Module, FCC ID: F4AWLNG551, IC: 3913A-WLNG551. We tested an additional antenna to be added to our device. The only changed data would include a photo, data sheet for the antenna, and the data for the product using the antenna. Nothing else has changed to the schematic, this antenna is strictly external.
