Equipment Description

Device: PNT9010-433

Description:

The PNT9010-433 is a self contained alarm system which have support for 32 programmable zones. These zones are all wireless with the exception of the two on board hardwire loops (Z1 and Z2 with Black as the return loop). The PNT9010-433 also has a built in Communicator (terminals for Tip/Ring and T1/R1) with a four wire bus for a Remote Sounder (to be submitted at a later date).

The PNT9010-433 only has a single partition, with no Programmable outputs. It is intended for Mass Market installations where the amount of time required to install the product is minimal. All programming and status information is annunciated verbally via the on-board speaker.

The PNT9010-433 operates at 433.92 MHz narrowband.

This panel is capable of DTMF, FSK, and BPS communications.
