Re: Change of Identification Authorization, FCC ID: QNPEV-F433W

Date: 3-19-2008

To Whom It May Concern:

This letter grants authorization for representatives of Digital Security Controls to apply to the FCC for a change in identification as specified under 47CFR2.933 of the FCC rules. This authorization applies to "Secure Wireless 4 Buttons Recessed Door/Window Sensor operates in 433.92MHz", FCCID: QNPEV-F433W. We are aware that Digital Security Controls intends to market the above referenced product under their own FCC ID: F5308WS4979.

Sincerely,

**Michael Lamb
