To Whom It May Concern:

The DSC RFK55XX-433M series of Keypads with RF receivers operating at 433.92MHz are built using the same enclosure, hardware (RF circuitry and keypad controls) and have similar functionality. The only differences are related to the method of displaying the status information of the alarm system:

- RFK5500-433M** – Keypad with RF receiver and Alphanumeric LCD display
- RFK5501-433M** – Keypad with RF receiver and Fixed messages LCD display

Respectfully yours,

A handwritten signature in black ink, appearing to read "Dan Nita", is written over a light blue horizontal line.
