Nov 27, 2008

To Whom It May Concern:

Keypad Models WT5500-433 and WT5500P-433 use an alphanumeric LCD to display the status of the 32 wireless zones and 2 hardwired zones of the compatible alarm control units Models PC9155-433, PC9155D-433 and PC9155G-433.

The Models WT5500-433 and WT5500P-433 are all identical in construction and functionality with the exception of the model number.

The Model WT5500P-433 includes also a magnet for use in conjunction with the Prox Tag Model PT4 for arming and disarming of the control unit models PC9155-433, PC9155D-433 and PC9155G-433.

Despite the system configuration differences there should be no difference in RF performance and functionality of the WT5500-433 and WT5500P-433 Wireless Keypads for alarm system.

Respectfully yours,

Dan Nita
