To Whom It May Concern

Subject: WiFi422SCW WiFi Module for Impass Alarm Control Panle – Operating Channels
FCC ID: F5312WiFi422SCW
IC: 160A-WiFi422SCW

This is to confirm that the Roving Networks WiFi radio module, model RN-171 (FCC ID: T9J-RN171) used in our interface model WiFi422SCW is operating only on channels 1 to 11 (frequency range 2412MHz to 2462MHz) in US and Canada. The operation only on the channels 1-11 is preset on the RN-171 radio module from Roving Networks and our interface, WiFi422SCW, does not have any capability to control or change the operating channels as they have been set in the RN-171 radio module.

Should you have additional questions regarding this matter please do not hesitate to contact me directly.

Your truly,
