Carlsbad, CA. 92008

To whom it may concern:

We confirm that the DSC Wireless remote access key model WS4939A FCC ID: F5313WS4939 and IC: 160A-13WS4939 is equivalent to the Secure Wireless model SW-ATT-FOB under FCC ID: QNP-433FOB and IC: 4676A-433FOB.

The DSC model WS4939A is identical with the SW-ATT-FOB that passed testing at the UL EMC testing laboratory with the exception of the product marketing name. Specifically there is no difference in the PCB layout, circuit design, components or mechanical design.

Senior Regulatory Compliance Engineer of Linear LLC
