**Subject: Use of LE910B1-NA documentation and FCC/ISED Reports**  
**FCC ID:RI7LE910NAV2**

**IC:5131A-LE910NAV2 HVIN:LE910B1-NA**

Dear Sir or Madam:

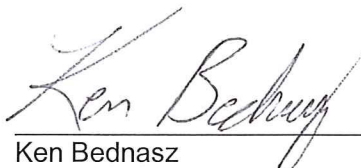

Telit authorizes integrator/customer Digital Security Controls (DSC) to use the LE910B1-NA construction documentation (schematics, BOM, Block diagrams, etc.) and the FCC and ISED reports for FCC and ISED certification of their LE2077 Cellular Alarm Communicators.

DSC may use MPE, part 15, 22, 24,27, ISED test reports along with all necessary documentation pertinent to Telit radio module LE910B1-NA and is authorized to use the company name "Telit", product name "LE910B1-NA" solely for the certification process of DSC models LE2077 which have the Telit LE910B1-NA embedded.

The Test Reports supplied by Telit to the FCC (1506FR21-01, 1506FR22-01) and ISED (1506RR14, 1506RR15-01) for our submission for grant are still representative of LE910B1-NA manufactured today.

If you have any questions or concerns feel free to contact me.

Sincerely,

Ken Bednasz  
Vice President of Application Engineering  
Telit Communications S.p.A
