Subject: Use of UE910-GL documentation and FCC reports

Dear Sir or Madam:

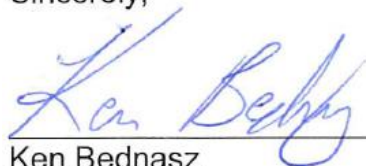

Telit authorizes integrator/customer Digital Security Controls (DSC) to use the UE910-GL construction documentation (schematics, BOM, Block diagrams, etc.) and the FCC reports for FCC certification of their 3G4000W Cellular Alarm Communicators.

DSC may use MPE, part 15, 22, 24, 27 test reports along with all necessary documentation pertinent to Telit radio module UE910-GL and is authorized to use the company name "Telit", product name "UE910-GL" solely for the certification process of DSC model 3G4000W which has the Telit UE910-GL embedded.

The Test Reports supplied by Telit to the FCC for our submission for grant are still representative of UE910-GL manufactured today.

If you have any questions or concerns feel free to contact me.

Sincerely,

Ken Bednasz
Vice President of Application Engineering
