RE: FCC ID: F8I-DLC1904B_ATCB003361
Attention: Joel T Schneider / Jolene Murphy

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the conducted output power listed on the 731 for CDMA is 16.6W. However, the report only supports a conducted power of 395mW (see page 20 of the test report). Please correct the 731 to be inline with the actual power measured. Alternately, please provide evidence to support the 16.6W CDMA listing for conducted power stated in the 731.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
