

Front and back pictures of each PCB for FCC purpose. There are 14 PCB's used in amplifier.

1. 3217603E - driver board
2. 3217604E - pre-error
3. 3217605E - error amplifier
4. 3217606E - sample coupler
5. 3217607E - delay
6. 3217608E - output coupler
7. 3217610E - detector
8. 3217612E - main amp
9. 3219609E - pilot tone
10. 3219611E - main amplifier mother board
11. 3219612E - main mother board
12. 3219613E - LCD
13. 3219617E - error amplifier mother board
14. 3227602E - control board
