Grantee (Company Name)	ADC Telecommunications, Inc.
FCC Contact Person	Joshua Wittman
Address	1187 Park Place
City, State, Zip	Shakopee, MN 55379
Job Number	TECO0005
Model	FWP-881T000MOD
FCC ID	F8I-PSM1904A
Agent	NA
Approval Type	Original
Equipment Class	TNT Licensed Non-broadcast base station transmitter
Rule Part	24

Overview

The FWP-881T000MOD serves as a transport between an FCC approved base station and a remote antenna. The system consists of two units; a "host", that is co-located with the base station, and a "remote", that resides at the location of the antenna. Both units perform wide band digitization, fiber optic transport, and reconstruction of the RF signal. In addition to RF transport, It also provides 10/100bT Ethernet connectivity between the host and all connected remotes

The host unit is designed for an indoor environment while the remote unit is designed for an outdoor environment.
