FYI – Looks like the TCBs can start issuing grants again without PBAs.

Josh,

Yes, but there may be some lag time as word filters out.

Thanks Joyce,

Does this mean the TCBs can issue the grants using the new industrial booster rules?

Joshua,

The remaining booster rules requiring OMB approval took effect on 9/11/13.

Subject: New Industrial Booster Label Waiver Requests

Hi Joyce,

I am not sure if the new Industrial Booster FCC rules have gone into effect yet but I have 2 more boosters that will need to be approved by the end of September. Please find attached waiver requests for WTB approval. My TCB will be filing PBA's again for these two projects. If there is any other new information regarding the new rules please forward to me.

Thank,

Joshua J. Wittman
