Re: *Schlumberger Resource Management Services, Inc.*
Response to Request for Further Information
FCC ID: F9C-CMM1101
Reference Nos.: 16822 and 16566.

Dear Mr. Chang and Ms. Green:

We are writing in response to your request for further information concerning an application to transfer the FCC Identification number of device F9C-CMM1101. On behalf of Schlumberger Resource Management Services, Inc. ("Applicant"), in August, 2000, we submitted applications to change all of the FCC Identification numbers held by CellNet Data Systems, Inc. ("CellNet"), grantee code H6N, to Applicant's grantee code, F9C. The purpose of these applications was to notify the Commission that Applicant purchased the assets of CellNet, including the equipment authorizations. Pursuant to the direction of Richard Fabina, Chief, Equipment Authorization Branch, the submissions consisted of a separate Form 731 for each of the devices and a single Form 159, which included payment for a single fee intended to cover all of the FCC Identification number transfers.

On October 12, 2000, we received e-mail correspondence from Ms. Green requesting further information regarding F9C-CMM1101. Specifically, Ms. Green requested that we submit an application (Form 731), an exhibit containing the information required by section 2.933(a), and an exhibit containing information required by 2.929(d). In response to Ms. Green's request and after further discussion with Mr. Fabina, we now provide additional information pursuant to section 2.933 of the Commission's rules. Since there is no change in design, circuitry or

construction involved in the pending application to change the FCC Identifier for device F9C-CMM1101, we are submitting an exhibit with related attachments providing the information required by section 2.933(b). Beyond this exhibit, we also enclose a copy of an external photograph of the device, a sketch of the new label, a copy of the Form 731 previously filed electronically with an exhibit describing the transaction, a copy of the Form 159 filed on behalf of Applicant and submitted for all of the equipment authorizations related to the transaction, and a copy of the e-mails sent requesting further information. We are also submitting all of the above materials and a copy of this letter electronically.

Regarding section 2.933(b)(5), referencing the photographs required by section 2.1033(b)(7), as we mentioned above, we are providing the photographs of the exterior appearance, and a sketch of the new label to be used in future production. The positioning of this new label on the device will not change from the positioning of the old label.

With respect to Ms. Green's request for further information pursuant to section 2.292(d), as discussed above, the assets of the existing grantee CellNet, including its equipment authorization for this device, have been purchased by Applicant. The Applicant's mailing address is: 1600 Alabama Highway 229, Tallassee, AL, 36078.

In addition to also requesting the submission of an external photograph of the device, Mr. Chang has asked for a demonstration of compliance with section 15.247(b)(4) in his e-mail correspondence dated October 27, 2000. However, section 1.1307(b)(1), of the Commission's rules, which is referenced by section 15.247(b)(4), categorically excludes Applicant from the requirement to conduct a routine environmental evaluation for RF exposure for the subject device. The Part 15 device is not listed in subsection 1.1307(b)(1) Table 1 or in subsection 1.1307(b)(2), and therefore falls into the excluded category. Accordingly, the Commission's rules do not require the submission of an RF evaluation.

Should you have any questions regarding this matter, please contact Zachary Zehner at (202) 383-3424 to expedite resolving any outstanding issues regarding the pending application.

Sincerely,

WILKINSON BARKER KNAUER, LLP

Enclosures

Exhibit

The following exhibit represents the “attached statement” and information required by section 2.933(b) of the Commission’s rules for an application for an equipment authorization where no change in design, circuitry, or construction is involved:

1) Original Identification Used Prior to Change in Identification (section 2.933(b)(1)):

H6N-CMM1101.

2) The Date of the Original Equipment Authorization (section 2.933(b)(2)):

April 4, 1997. See attachment for copy of original equipment authorization.

3) How the Equipment Bearing Modified Identification Differs from Original Equipment (section 2.933(b)(3)):

The equipment bearing the modified identification does not differ from the original equipment.

4) Whether the Original Test Results Continue to be Representative of and Applicable to the Equipment Bearing Changed Identification (section 2.933(b)(4)):

The original test results continue to be representative of and applicable to the equipment bearing the changed identification.

5) The Photographs Showing Exterior of Appearance of Equipment (section 2.933(b)(5)):

See attachment.
