Mr. Joe Dichoso  
Federal Communications Commission  
Equipment Authorization Division  
7435 Oakland Mills Road  
Columbia, MD 21046

Re: *Schlumberger Resource Management Services, Inc.*  
Response to Request for Further Information  
FCC ID: F9C-CMM1305  
Reference No: 16837

Dear Mr. Dichoso:

We are writing in response to your request for further information concerning an application to transfer the FCC Identification number of device F9C-CMM1305. On behalf of Schlumberger Resource Management Services, Inc. ("Applicant"), in August, 2000, we submitted applications to change all of the FCC Identification numbers held by CellNet Data Systems, Inc. ("CellNet"), grantee code H6N, to Applicant's grantee code, F9C. The purpose of these applications was to notify the Commission that Applicant purchased the assets of CellNet, including the equipment authorizations. Pursuant to the direction of Richard Fabina, Chief, Equipment Authorization Branch, the submissions consisted of a separate Form 731 for each of the devices and a single Form 159, which included payment for a single fee intended to cover all of the FCC Identification number transfers.

On October 30, 2000, we received e-mail correspondence from you requesting further information regarding F9C-CMM1305. Specifically, you requested that we provide all items required by section 2.933 of the Commission's rules, external photographs of the device and all antennas, an exhibit indicating compliance with RF safety requirements, and if the device is to be granted as a module, an exhibit showing compliance with the new module requirements. After further discussion with Mr. Fabina, we now provide additional information pursuant to section

2.933, we also enclose a copy of an external photograph of the device, a sketch of the new label, a copy of the Form 731 previously filed electronically with an exhibit describing the transaction, a copy of the Form 159 filed on behalf of Applicant and submitted for all of the equipment authorizations related to the transaction, and a copy of your e-mail requesting further information. We are also submitting all of the above materials and a copy of this letter electronically.

Regarding section 2.933(b)(5), referencing the photographs required by section 2.1033(b)(7), we are providing the photographs of the exterior appearance of the device, including a picture of all antennas. We are also providing a sketch of the new label to be used in future production. The positioning of this new label on the device will not change from the positioning of the old label.

With respect to your request for an exhibit indicating compliance with RF safety requirements, we are in active discussions with Commission staff and we will be addressing the issue in the near future.

Regarding the issue of whether the device is to be granted as a Part 15 "module," at this time Schlumberger has determined to not make the necessary submissions to satisfy the related submission requirements. In the future Schlumberger may seek to convert the authorization of F9C-CMM1305 to a module to take advantage of the increased flexibility the designation provides.

Should you have any questions regarding this matter, please contact Zachary Zehner at (202) 383-3424 to expedite resolving any outstanding issues regarding the pending application.

Sincerely,

WILKINSON BARKER KNAUER, LLP

A handwritten signature in dark ink, appearing to read "Zachary A. Zehner". The signature is fluid and cursive, with the first and last names being more prominent.

### **Exhibit**

The following exhibit represents the “attached statement” and information required by section 2.933(b) of the Commission’s rules for an application for an equipment authorization where no change in design, circuitry, or construction is involved:

1) Original Identification Used Prior to Change in Identification (section 2.933(b)(1)):

H6N-CMM1305.

2) The Date of the Original Equipment Authorization (section 2.933(b)(2)):

January 6, 1998. See attachment for copies of original equipment authorization.

3) How the Equipment Bearing Modified Identification Differs from Original Equipment (section 2.933(b)(3)):

The equipment bearing the modified identification does not differ from the original equipment.

4) Whether the Original Test Results Continue to be Representative of and Applicable to the Equipment Bearing Changed Identification (section 2.933(b)(4)):

The original test results continue to be representative of and applicable to the equipment bearing the changed identification.

5) The Photographs Showing Exterior of Appearance of Equipment (section 2.933(b)(5)):

See attachment.

# Federal Communications Commission

## The Form 731 Application You Just Entered Has Been Submitted Successfully to the Laboratory Division. Please Record The Following Information For Future Reference:

If any information has been entered incorrectly on the 731 or 159 form, please contact [btaube@fcc.gov](mailto:btaube@fcc.gov) for correction rather than submitting a second 731 or 159.
