

American Telecommunications Certification Body Inc.

6731 Whittier Ave, McLean, VA 22101

February 20, 2008

RE: Fleetwood Group, Inc.

FCC ID: FBRUSB240D

I have a few comments on this Application.

1. In the IC application you list conducted power. I am unable to find this in the test report. Please explain.

Response: Please refer to the revised IC application form uploaded with this response that correctly indicates the power is EIRP.

2. Please upload External Photos.

Response: An external photo exhibit was uploaded with the other documents. Please refer to the internal photograph exhibit uploaded with this response. As this is a module, the external and internal photo exhibits are the same.

3. Please upload Annex B for Industry Canada RF requirements.

Response: Please refer to the form uploaded with this response.

Thank you,
Douglas E. Noble
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination.

Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
