RE: Datacomp Electronics

FCC ID: FBX-5831-0608-01

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Please provide a basic block diagram of the WUSB. Is this a single chip Bluetooth solution?
- 2.) Please review your label Exhibit. Will the two-part statement of 15.19(a)(3) appear on the device or in the Manual? This label exhibit appears to contradict itself.
- 3.) Will this device also come under the Certification or DoC procedure for equipment authorization as a computer peripheral? If DoC then you are reminded that the FCC logo must appear on this product. If Certification is desired, then a separate Certification as a computer peripheral is requested.

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
