Re: FIH05946 Additional Information

Applicant:
Transcore
Amtech Technology Center
8600 Jefferson Street, NE
Albuquerque, NM 87113 USA

Equipment: **FCC: FIH05946**

To whom it may concern:

Item 1. Label: Subpart 1. With regard to feedback indicating that the placement of the label is not clear, the following image is offered. The marking is actually etched into the plastic case with a laser; there is not a label as such.

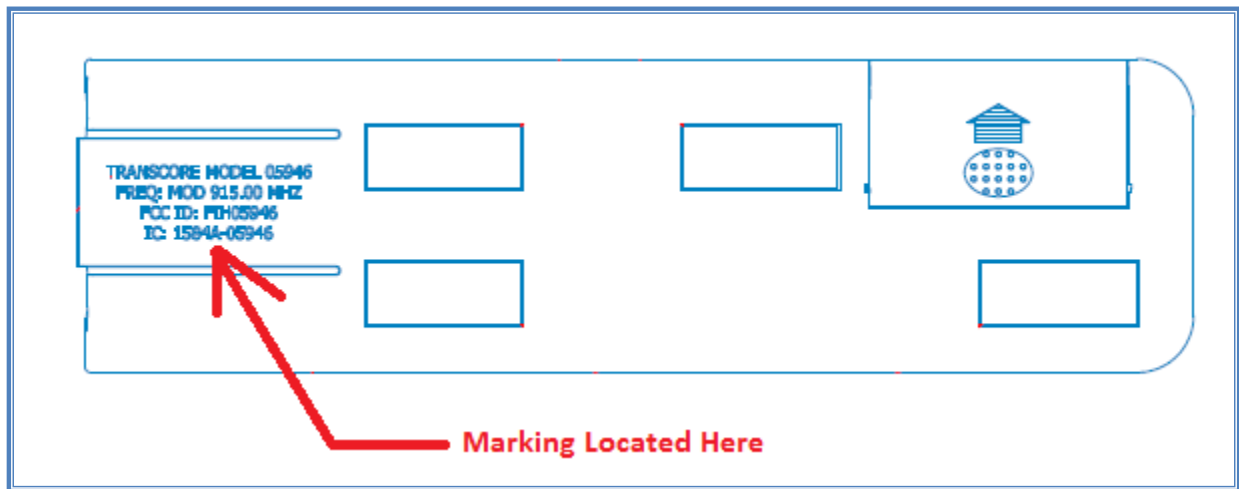

Figure 1 - FIH05946 Marking Diagram

Item 1. Label: Subpart 2. To conform to our particular manufacturing process we have chosen to mark the equipment using a laser. The amount of process time at the laser station is directly proportional to the amount of text being applied so we wish to minimize the amount of text as

Amtech Technology Center
8600 Jefferson Street NE
Albuquerque, New Mexico 87113

much as possible to maintain our throughput efficiency. In addition, although the overall size of the equipment is indeed larger than the palm of a hand, the amount of space available for marking is in fact limited by the necessary placement of hook and loop tape, a battery door, and discontinuities, all of which reduce the amount of contiguous surface area. The full warning statement is included in the installation instructions for this tag so we respectfully request approval for the marking illustrated in this document.

Thank you for your consideration in this matter.

Sincerely,

Chris Wilson
