RE: Wulfsberg Electronics Division

FCC ID: FRW2000-UHF2A

I have a few comments on this Application.

- 1.) The user manual under RF Exposure Information states the minimum safe distance as 25 cm. The MPE report you submitted states the minimum safe distance as 50 cm. Please revise the user manual to match your MPE report.
- 2.) Page 21/58 and page 31/51 occupied bandwidth plots fail mask D. Please explain.

Thank you,

Douglas E. Noble
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
