**FCCID: FSOIRISMP6**

14<sup>th</sup> August 2012

**Attestation Statement**

On behalf of ICD, I declare that the WiFi technology built into the product IRIS MP6 has not been enabled and will never be so on this design.

Operation of the WiFi technology has been restricted by software disabling both the WiFi transceiver and the power regulator that supplies it. The enable pins on both the transceiver and regulator are pulled low at all times.

The bootloader is signed with a secure certificate and the end user will not have the ability to install any modified software on this device in an attempt to enable WiFi.

Yours sincerely

A handwritten signature in black ink, appearing to read 'P Greenhalgh', with a stylized flourish at the end.

Phil Greenhalgh  
Chief Operating Officer
