Hi Gloria,

Please address following issues.

Q#1: The operational description only provide the warning when using this dongle which is more like the instruction manual. There are no information mentioned regarding the transmitter's modulation, transmitting frequency and etc.. Please provide.

Ans: We added the statements on the revised operational description. Pls find the attached

Q#2: There are 3 block diagrams as device block diagram, dongle block diagram and RF module block diagram in the exhibit of block diagram. Please clarify what the device block diagram refers to.

Ans: We removed 2 block diagrams. Pls find the attached for dongle block diagram.

Q#3: Test report is not approved yet. Please have a check.

Ans: Pls see page3 on the revised report.

Q#4: Test report mentioned that EUT is powered by Notebook computer via a USB cable which doesn't agree with the test setup. Please revise.

Ans: Pls see the page4 on the the revised report.

Best Rgeards,

Lucy

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
