Federal Communications Commission (FCC) Notice

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installations, if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient / Relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that the receiver is connected.
4. Consult the dealer or an experienced radio / TV technician for help.

CAUTION: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

Introduction

The latest innovation in wireless technology is the NewScroll Wireless mouse. It consists of a mouse and a receiver and with the reliable radio wireless technology, NewScroll Wireless gives you the freedom to move your mouse without any limitation or hassles with a cable. The mouse can be used from a distance from up to 1.5m, even if desktop items are between it and the receiver.

Hardware Installation

Connecting NewScroll Wireless to Your Computer

Note: Always turn off your computer before you connect or disconnect your mouse.

1. You can connect the mouse to either the PS/2 or serial port.
2. For the PS/2 mouse port, connect your mouse to the 6-pin PS/2 port on your computer (fig. 1).

Connecting to a
PS/2 port

to a 9-pin serial port

Serial port
Fig. 2

3. For the serial (9-pin) port, connect a 6-9 pin adapter to a 9-pin serial port (fig. 2).
4. Turn on your computer.

Note: If you use NewScroll Wireless on a Notebook PC PS/2 port, you must disable the touchpad or J-key function in the BIOS and enable the external PS/2 port. Otherwise NewScroll Wireless will operate like a normal 2-button mouse.

NewScroll Wireless Batteries

The NewScroll Wireless includes two standard AAA batteries, which last up to half a year for an average user. To extend the battery life, NewScroll Wireless automatically "sleeps" after around 45 seconds of inactivity. Click any button to turn it back on.

Switch Frequency Channels

If there are two wireless mouse devices in a room, the NewScroll Wireless provides two separate channels in 27MHz band. you can switch to another channel on the device. This prevents any interference when using two wireless mouse devices in the same room.

Software Installation

Installing the MouseMate98-NewScroll Wireless software

For Windows 95/98/NT

1. Insert the MouseMate98-NewScroll Wireless software diskette into drive A or B.
2. Open the "Start" menu (Ctrl & Esc), and select "Run".
3. Type A:SETUP (or B:SETUP) in the command line box and select "OK".
4. Follow the instructions on the screen, and when the installation is complete, restart your computer.

For Windows 3.x

To use NewScroll Wireless with Windows 3.x, you need to download the driver from the Genius Homepage "www.geniusnet.com.tw".

What's New About NewScroll Wireless

With NewScroll Wireless's unique ergonomic design, you can surf the Internet or scroll through Windows documents easily. The convenient "Magic-Surfer" only needs one finger to control it so think of it as the ultimate input controller. It can also eliminate 30% of your mouse movements.

Factory Settings

With the reliable wireless radio technology, you get the freedom of moving your mouse without any limitations. The unique ergonomic design of NewScroll Wireless lets you surf the Internet or scroll through Windows documents easily.
