

Operational Description

To enter continuous transmission mode:

First, make sure the EUT is turned off.

Then hold on the 3 buttons (Left, right and the scrolling wheel) and turn on the EUT.

Next release the scrolling wheel button and then press that button 5 more times to enter the continuous transmission mode.

The EUT will first transmit at 2409MHz, press the right mouse button to select between the 3 channels (2409MHz, 2441MHz, 2475MHz).
