Subject: FCC ID: FU5FE001

Dear Sir;

Thank you for your recent application for equipment authorization. The following issues must be addressed before processing can continue.

1. Please provide revised User's Manual that contains a statement in compliance with FCC Rule Part 15.21 "Information to user" and also under a heading of CAUTION or IMPORTANT NOTE a statement such as: "To comply with FCC RF exposure compliance requirements the following device operating considerations MUST be taken: (1) Do not open case for any reason; and (2) Do not use if case is broken.
2. Please note that the Test Report refers to the FCC governing Rule Part as 15.233 for cordless phones. This device is a portable transmitting device operating under Part 15.247 of the FCC Rules. This is for your future reference, no action will be required at this time.
3. Please provide additional data and photos indicating that testing was conducted through three orthogonal axes in accordance with ANSI C63.4 1992 Section 13.1.4.1(3)"...with handheld or body worn devices rotated through three orthogonal axes to determine which attitude and configuration produces the highest emission relative to the limit." Section 5.1 of the Test Report does not clearly indicate that such actions were taken.
4. Please indicate which of the three orthogonal axes produced the highest emission relative to the limit and was then used in final testing.
5. Part 2.1033(b)(5) of the FCC Rules requires that a block diagram be provided. The block diagram submitted cannot be read. Please upload a new block diagram.
6. Please note: It would seem that the equipment for which grant is sought operates with, and is marketed with another device that requires an equipment authorization, namely FCC ID: FU5FB001. On future applications where this is the case, please indicate so on the application. You will find that section immediately before the ANTI-DRUG ABUSE CERTIFICATION. No action will be required for this application.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Best Regards,

Barbara L. Judge
