

## TROUBLESHOOTING & SUPPORT

- Problem - Vehicle does not move or moves slowly.
- Make certain there are fresh alkaline batteries in the transmitter and that they have been installed in the correct position.
  - Are the (+) and (-) markings on the alkaline batteries in the same position as the (+) and (-) markings in the Transmitter Battery Compartment?
  - Has the internal battery in the vehicle been charged?
  - Are the metal contact tabs touching, rusty or dirty in the transmitter?
  - Make certain that the vehicle ON/OFF switch is in the "ON" position.
  - Hair and debris can become wound around the wheel axle, limiting movement. Inspect and clean wheels to ensure they are free of debris and or hair.

- Problem - Vehicle moves by itself or exhibits reduced range from the transmitter.
- Make certain there is no outside radio interference in your area. The best way to test this is to take the vehicle as far away from radio towers, electrical lines or tall buildings as possible to ensure no further radio interference will occur.

Always remove Batteries from transmitter when not in use.  
Do not dispose batteries in fire. Leakage, explosion and personal injury may occur.  
Do not attempt jumps or tricks with this vehicle.  
Do not attempt to remove internal battery.  
Adult supervision recommended.

## PROPER USE, PRECAUTIONS & CARE

**F.C.C. CAUTION:**  
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**NOTE:**  
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## OWNER'S MANUAL

Please read and understand all precautions prior to use.

Thank you for choosing a premium New Bright product.

USA & Canada  
30-Day Limited Warranty

New Bright Industries warrants to the original purchaser that this product will be free of defects in materials and workmanship for thirty (30) days from the date of purchase. In the event of such defect within the warranty period, New Bright will repair or replace the product at our sole discretion. This warranty does not cover damage resulting from unauthorized modifications, accident, misuse or abuse.

Should your item have a defect covered under this warranty, first call the toll free number listed below. Most problems can be resolved in this manner. If necessary, you will be issued a Return Authorization number (RA) and instructions on how to obtain a Product Return Form. The Product Return Form is to be used when returning a product to us (postage pre-paid and insured by the consumer).

When returning a defective product, please package the product, the Product Return Form and a copy of the dated sales receipt as proof of purchase. Be sure to mark the RA number on the Product Return Form. If the product is returned without a dated sales receipt, it will be excluded from coverage under this warranty. Please allow 4 to 6 weeks for delivery of repaired or replacement vehicles (depending on your location).

New Bright Industries' liability for defects in materials and workmanship under this warranty shall be limited to repair or replacement at our sole discretion. In no event shall we be responsible for incidental, consequential or contingent damages (except in those states that do not allow this exclusion or limitation).

Valid only in the USA & Canada.

## TRANSMITTER BATTERY INSTALLATION

1. Remove the screw to open the Battery Compartment Cover.
2. Install 2 "AAA" alkaline batteries in the battery compartment with positive (+) and negative (-) ends matching the compartment markings.
3. Slide the Battery Compartment Cover back and replace the screw.

### For Best Results:

1. Do not mix old and new batteries.
2. Do not mix alkaline, standard or rechargeable batteries.
3. Use alkaline batteries only.

## TRANSMITTER FUNCTIONS & HOW TO DRIVE

### Auto pairing:

1. Install alkaline batteries in transmitter.
2. Turn vehicle ON/OFF switch to the ON position.
3. Indicator light on transmitter will flash for pairing.
4. When indicator light stops flashing pairing is complete. You are now ready to play.

## VEHICLE FUNCTIONS

### Steering Trim:

If the vehicle veers to the left or right, adjust steering trim on underside of vehicle until the desired alignment is reached.

### Note:

This vehicle has working lights. When driving forward or reverse the lights will turn on.

## CHARGING INSTRUCTIONS

### Operation:

1. Move switch on bottom of vehicle to the "OFF" position.
2. Raise Helmet Visor on controller.
3. Align vehicle as shown.
4. Slide the vehicle so that the charging contacts align together the contacts inside the helmet.
5. The charging indicator light will turn on when the vehicle is charging successfully. If the charging indicator is flashing while the vehicle is connected, it means that the batteries in the helmet are low and should be replaced.
6. When charging is completed, in approximately 6-8 minutes, the charging indicator light will turn off.
