CHARGING THE VEHICLE BATTERY

This vehicle is equipped with an internal Lithium-Ion battery that is recharged via USB.

ON/OFF Switch must be in the OFF position prior to charging.

1. Locate the Charging Cord Compartment Cover on the underside of vehicle.
2. Remove USB cable from the Storage Compartment. (Use care when extending cord as it is attached to inside internal battery). Cord can be plugged into any computer or USB outlet brick (not included).
3. Insert the USB connector into a computer or other USB power source.
4. While charging, the Charging Status Light under the vehicle will be on. Once fully charged the light will turn off. Charging is completed in approximately 2-3 hours (when charging from a computer).
5. After charging is complete, store the USB cord in the Charging Cord Compartment. Replace the Compartment cover.

Transmitter

Battery Installation

4

1. Locate the Transmitter Battery Compartment, which is on the back of the Transmitter.
2. Move the Battery Compartment Lock towards the Battery Compartment and remove the Battery Compartment Cover.
3. Insert 2 "AA" batteries. Make certain the plus (+) and minus (-) markings on the batteries are in the same position as the plus (+) and minus (-) markings inside the Battery Compartment.
4. Replace Battery Compartment Cover making certain that the Battery Compartment Lock has "snapped" into the locked position.

Note: When replacing batteries:
Use alkaline batteries only.
Do not mix old and new batteries.
Do not mix alkaline, standard or rechargeable batteries.

Transmitter

Features and Functions

FORWARD/REVERSE DRIVING

Push BOTH joysticks forward for Forward Driving.
Pull BOTH joysticks back to drive in Reverse.

360° SPINS – Counter-Clockwise
Push both joysticks in opposite directions continuously as shown for Counter-Clockwise Spinning.

360° SPINS – Clockwise
Push both joysticks in opposite directions continuously as shown for Clockwise Spinning.

This transmitter is equipped with 2.4GHz technology which allows up to 6 vehicles to be raced at the same time.

The transmitter will automatically sync with the vehicle.

Proper Use

Precautions and Care

6

Switch vehicle OFF when not in use.

Brush areas where dirt gets trapped.

Wipe body with a soft rag or cloth

Do not use chemicals or water to clean

Support

Trouble shooting & Support

7

Problem - Vehicle does not move or moves slowly.

- Has the rechargeable Internal Battery been fully charged?
- Make certain there are fresh alkaline batteries in the transmitter and that they have been installed in the correct position.
- Are the (+) and (-) markings on the alkaline batteries in the same position as the (+) and (-) markings in the Transmitter Battery Compartment?
- Are the metal contact tabs touching, rusty or dirty in the transmitter?
- Make certain that the vehicle ON/OFF switch is in the "ON" position.

Problem - Vehicle moves by itself or exhibits reduced range from the transmitter.

- Make certain there is no outside radio interference in your area. The best way to test this is to take the vehicle as far away from radio towers, electrical lines or tall buildings as possible to ensure no further radio interference will occur.

FCC CAUTION:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

New Bright

Warranty Information

8

USA & Canada 30-Day Limited Warranty

New Bright Industries warrants to the original purchaser that this product will be free of defects in materials and workmanship for thirty (30) days from the date of purchase. In the event of such defect within the warranty period, New Bright will repair or replace the product at our sole discretion. This warranty does not cover damage resulting from unauthorized modifications, accident, misuse, or abuse.

Should your item have a defect covered under this warranty, first call the toll free number listed below. Most problems can be resolved in this manner. If necessary, you will be issued a Return Authorization (RA) number and instructions on how to obtain a Product Return Form. The Product Return Form is to be used when returning a product to us (postage pre-paid and insured by the consumer).

When returning a defective product, please package the product, the Product Return Form and a copy of the dated sales receipt as proof of purchase. Be sure to mark the RA number on the Product Return Form. If the product is returned without a dated sales receipt, it will be excluded from coverage under this warranty. Please allow 4 to 6 weeks for delivery of repaired or replacement vehicles (depending on your location).

New Bright Industries' liability for defects in materials and workmanship under this warranty shall be limited to repair or replacement at our sole discretion. In no event shall we be responsible for incidental, consequential or contingent damages (except in those states that do not allow this exclusion or limitation).

Valid only in the USA & Canada.
