Ref: FCC Class II Permissive change for FCC ID: G95UIW4054

Applicant: Technicolor Connected Home USA LLC

Dear Examiner,

This is to request a Class II Permissive change for FCC ID: G95UIW4054 originally granted on 08/17/2021.

The major change field under this application is:

PCB Layout changes from LAB3D version to LAB3E version.

Please see the following table for details.

Change ID	PCB Layout changes from LAB3D version to LAB3E version
1	Due to UP06(RT9041B-10GE_SOT23-6) shortage, co-layout SOT23-5 part. Add RP98 and RP99 for SWAP.
2	Improved +5V_SW Power plan below HDMI connector in Layer 3. Replace power ground with track to reduce coupling from this power to HDMI signal.

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,

Name: Robert Lyall

Date: 2022.11.04

Title: Principal Certification Engineer
