Attention: Mr. Sid Sanders

Subject: FCC Part 15 Class "II" Permissive Change Filing for
Thomson Inc. - Model 27851XX1-B (Base)
Marstech Report No. 26074D

Reference: FCC ID: G9H2-7923A (Base)

Gentlemen:

We are herewith submitting a Part 15 Class "II" Permissive Change filing for Thomson Inc. to cover additional Model 27851XX1-B (Base) [where the two "XX" following the model number can be any letter which represents trade name, colour or packaging for marketing purposes and the numerical number "1" after the two "XX" indicates that this model will only have one cordless handset that will be used with the unit], for Part 15 certification.

The Model 27851XX1-B (Base), a 900MHz single-line cordless telephone base with answering machine, is identical to previously registered Model 27851XX1-A (Base) except for model designation and changes in the base RF module.

In view of the above, all applicable tests in compliance with FCC Part 15 Rules have been completed on subject model with satisfactory results as shown in the enclosed report.

This also covers Model 27851XX2-B (Base) which is identical to Model 27851XX1-B (Base) except for model designation and it comes with a remote handset/charger unit. (The numerical number "2" after the "XX" indicates 2 cordless handsets.)

Please review this project at your earliest convenience and please do not hesitate to call us should any problem arise.

Yours very truly,

MARSTECH LIMITED
