Norway

Date: February 14, 2007

Please be advised that the telephone handset used in the Thomson telephone model 28310XX1-A and 28311XX1-A are identical in construction, components, and layout. The packaging differs only in that the 28311XX1-A comes with a telephone handset and charging cradle, whereas the 28310XX1-A consists of the 28311XX-A handset and charging cradle with the 28310XX1-A telephone base for connection to the house telephone line.

Please contact me if there are further questions.
