

FCC ID: GAFMIC2

Circuit Description

The 98MHz LCR oscillator drives the base of Q3 the final/buffer amplifier. The modulation provided by MIC. The output of Q3 has the matching network consisting of C15 and C12 that limit the harmonic content and effect the proper coupling of the antenna to the output stage.

Antenna, Ground and Power Source

There is no external antenna. There is no external ground connection. The ground is only that of the printed circuit board. Electric current is supplied by a 3 Volt ("AAA" size battery x 2) primary battery
