

American Telecommunications Certification Body Inc.
6731 Whittier Ave, McLean, VA 22101

February 27, 2003

RE: Rosslare Enterprises Ltd.

FCC ID: GCD-2628SATX

I have a few comments on the above referenced Application.

- 1) Two different Confidentiality request letters appear to be provided. One asks for the test report to be held confidential. Please note that only technical proprietary information may be held confidential. Test reports may not be held confidential. The second one references schematics and operational description only. Please explain.
- 2) The spurious emission for 1672 MHz falls in a restricted band. Therefore the limit for this emissions must follow 15.205. Also, it appears that the limits of 15.205 were applied to 2090 MHz. Please note that this emissions does not fall in a restricted band and the limit of 15.231 may apply. Please correct this information given on page 9 and 21 of the test report.

A handwritten signature in black ink, appearing to read "Timothy R. Johnson", is written over a light blue horizontal line.

Timothy R. Johnson
Examining Engineer
