Mr. Rick King
Elite Electronic Engineering
1216 Centre Circle
Downers Grove, IL 60515-1082

April 22, 2002

Dear Rick,

Regarding the FCC and Industry Canada applications you are processing for Rosslare's AY-Q12 and AY-Q14 prox card readers, ref. our PO P020650-00:

I am sending you via email attachment the additional exhibits (label artworks and instruction manuals) you requested today.

Rosslare requests that these exhibits and the ones I sent you on April 15, 2002 be treated as confidential information and be withheld from public disclosure by the FCC as allowed by Section 0.457(d) of the Commission's rules.

If there are any forms (i.e., Elite CSF 20-01 or similar) that I need to fill out, please email them to me.

Thank you for your continuing cooperation.

Very truly yours,

Joe LeKostaj
Engineering Manager
