Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: FCC Application Letter

Model #: KNNNW (listed in test reports as Medigenic K080 & K081 Keyboard – all refer to the same device)

FCC ID: GCYKNNNW

To Whom It May Concern:

This letter is a request for original certification approval under FCC 15.247 for a wireless keyboard for use with any computer system with a USB port. The keyboard works together with a separate USB dongle (also wireless). Together, the units function as a wireless keyboard for any computer system with a USB port. The radio link between the keyboard and the dongle uses the 2.4GHz unlicensed band in a hybrid frequency-hopping design.

A separate FCC application will be submitted simultaneously for the wireless dongle.

Best Regards

A handwritten signature in black ink that reads "Wayne Hash".
