

Antenna Spec

1. **Frequency:** 2.4Ghz
2. **Antenna Type:** It's up to the customer to use F antenna or our latest Wiggle antenna. We have radiation polar plot data for Wiggle antenna.
The type of antenna is customer's choice
3. **Antenna peak gain:** The maximum antenna gain is 0 dBi(with respect to isotropic antenna) in the best orientation.
4. **VSWR:** The antenna will have better than 1.5:1 VSWR over the operating frequency range
5. **Polarization:**

6. **Impedance:** (50) Ohms
