Subject: FW: Compal Electronics, Inc., FCC ID: GKRGR-BCM94312MC, Assessment NO.: AN09T9155, Notice#1

Hi Celine,

Please address following issues.

Q#1: Manual indicates the host has also equipped with 3G WWAN and Bluetooth devices in this notebook computer. In SAR report, only WLAN and BT modules were mentioned. Please clarify whether 3G WWAN can transmit simultaneously with WLAN and Bluetooth devices and provide the co-location statements into the user manual if applicable.

**Ans.: This notebook computer only has WLAN and BT function for current SKU, the 3G WWAN function maybe will upgrade in the future. Our client has declared for this, please see the additional files.**

Besides, please specify each antenna distance to body and also the distance from WLAN antenna to other transmitters' antenna from the EUT photos.

**Ans.: The detail information about the antenna location, please see the additional files.**

Q#2: According to the C2PC letter, this is to add a specific mobile host configuration which doesn't agree with this filing. Please update the C2PC letter.

**Ans.: I had revised the C2PC letter, please see the additional files.**

Q#3: Please provide host's label format and location.

**Ans.: The label format and location, please see the additional files.**

Best Regards,

Lucy Tsai
