

Antenna Specification

Manufacturer: Laird Technologies

Model: CAF96323

Type: PIFA

Gain: 0 dBi

WLAN Antenna Specification

- Frequency range 2400MHz – 2500MHz
- Impedance 50 Ohms
- VSWR < 2 :1 over the specified frequency range for the antenna
- Gain 2.1dBi

Mechanical dimensions

Note: antenna board thickness is 0.030" or 0.762 mm.

3D Radiated pattern
