

SPORTON LAB

Response For FCC Application

2004/12/24

RE: Psion Teklogix Inc.

FCC ID: GM37525MGSM

1. Updated
2. The CDMA portion is reserved for next model. The real product is based on the product spec.
3. Updated in the internal photo.
4. CMCS GSM is considered as a component, no detailed BOM for it.
5. BT portion is removed
6. Updated
7. Updated in the new schematic
8. Please check the battery spec, which mentions the voltage is 3.7 V.
9. The device has no voice function, so there is no earphone. It does not provide beltclips, lanyard, either.

Sincerely Yours

Daniel Lee

EMC/SAR Manager
