Date: Mar. 13, 2006

Declaration of Product Modifications

We, Psion Teklogix Inc., would like to apply Class II permissive change of the 7525C Series / 7525M-E Series (FCC ID: GM37525RADA).

The differences are as below:

The Product, 7525C and 7525M-E are complete the same HW and RF design, but different SW controls panel. 7525C and 7525S are the same RF module and the same antenna, but different main board. The conducted powers of 7525C and 7525S Series are within 0.5 dB, and the EIRP/ERP of these 2 models are within 3 dB.
