Subject: Differences between two variants 7527C and 7527S

Applicant: PSION Teklogix Inc.
Product: WORKABOUT PRO G2
Model: 7527C-BSHC and 7527S-BSHC
FCC ID: GM37527BSHC

Dear Sir/Madam,

I hereby describe the differences between the two models 7527C and 7527S as follows:

1. The key board used in 7527S is shorter than the one used in 7527C
2. The power circuitry under the key board is different due to the smaller space available for the circuitry.

Otherwise 7527C is identical to 7527S.

Regards,

Sada Dharwarkar, P.Eng.
Supervisor, Approvals
