

## **Approvals And Safety Summary**

This equipment complies with Class B Part 15 of the FCC rules.

Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by Psion Teklogix, the party responsible for compliance, may void the user's authority to operate the equipment.

### **1. FCC Information to Users**

For Class B Unintentional Radiators:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### **2. Warning to Users**

**Warning:** Changes or modifications not expressly approved by Psion Teklogix Inc. could void the user's authority to operate the equipment.

### **FCC & IC RF Exposure Warning**

- A separation Distance of at least 20 cm is required be maintained between the user and the antenna when the antenna with the gain of less than or equal to 2 dBi is used for Mobile Application.
- A separation Distance of at least 50 cm is required to be maintained between the user and the antenna when the antenna with the gain of less than or equal to 12 dBi is used for Fixed Base Application.

### **Labeling Requirement for OEM Product**

OEM Manufacturer to make their own FCC & IC Label with the following wording:

Contains Psion Teklogix Inc UHF Radio, Model RA1001

FCC ID: GM3RA1001

IC: 2739D-RA1001
