

EQUIPEMENT UNDER TEST (E.U.T.) PHOTOGRAPH(S)

WORKABOUT PRO (7527C) + WA9005 + BT + RA2041 + RA3030 +  
RFID Module UHF-CA2-A5

<p>Radiated electric field emission on OATS</p>	 A photograph showing a black mobile phone-like device (the Workabout Pro) placed on a wooden table. A power cord is connected to the device and runs down to a white power supply unit on the floor. The setting appears to be an anechoic chamber or a similar testing environment with concrete walls and a dark floor.
<p>Conducted emission</p>	 A close-up photograph of the black Workabout Pro device on the wooden table. The device is connected to a power supply unit on the floor via a power cord. The focus is on the device and its connection to the power source.
