Dear Sir,

This is to request confidentiality on information submitted for the above application. We would like to request confidentiality on some exhibits we submitted for the above application for the reason of trade secret. If those exhibits are available for public inspection, any person who once gets the information contained in those exhibits will be able to design and to make the same products very easily. This is a very serious problem and huge loss for us, because we did invest so much on it.

Please be not made the Exhibit Types listed below routinely available for public inspection:

**Dear Sir,**

**This is to confirm and explain the modification of our product submitted to apply for FCC Class II Permissive Change.**

**Due to the request of our client, we just changed the antenna portion on circuit board. And after we re-investigated the all requirements of FCC rules, we found the result was still complying with the limitation.**

**Please kindly accept this Class II permissive Change. If you have any further questions about this modification, please contact us. Thank you in advance.**

**Best regards,**
