RE: FCC ID: GQ4-32T\_ATCB003632  
Attention: **Valdis V. Liepa**

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the report and other documentation states that the device is being certified under 15.231a. Please note that certain requirements exist for devices under this rule part that have not been addressed in the documentation. For example, while the report states that the device is activated automatically, it does not say how it is automatically activated (what activates the device) or if activation is on a predetermined scheduled periodic event (not allowed). Please note that the manual provided only has FCC statements etc and does not contain any operator instructions. Please also note that the operational description does not explain how this device meets 15.231(a) requirements. Please address all of the restrictions for devices operating under 15.231 including; non-predetermined periodic operation, total transmission time not exceeding two seconds per hour, etc.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
