RE: Certification for Chrysler Ignition Node Module

Model #: 232845 and 232890
FCC ID: GQ4-63T
IC ID: 1470A-44T

PRINCIPLES OF CIRCUIT OPERATION

The Ignition Node Module (IGNM) contains the vehicle operator interface for the vehicle ignition switch activation. IGNM operates with the vehicle battery power. IGNM authenticates a key fob, which has a LF transponder built-in, as it is inserted into a key slot on IGNM.
