Re: Certification for TRW Automotive 225260-105, 225260-106  
IC: 1470A-49T

Please find enclosed application materials for certification of TRW Automotive 225260-105, 225260-106.  
We tested it and found it to comply with RSS-210 and RSS-Gen.

There are two variants of the EUT. Both variants respond to manually activated LF interrogation (through the use of special LF tool) with a single transmission. Model 225260-105 has its LF detector coil (L4) mounted in line with the valve stem. Model 225260-106 has its LF detector coil (L5) mounted orthogonal to the valve stem. Both electrical variants are tested herein.

If there are any questions regarding the application or testing performed, please contact us at the above address or call (734) 483-4211, or e-mail liepa@umich.edu.

Sincerely,

Valdis V. Liepa
