Re: Certification for TRW Automotive 218898-105,-106,-017
IC: 1470A-50T

Please find enclosed application materials for certification of TRW Automotive 218898-105,-106,-017.
We tested it and found it to comply with IC RSS-210/GENe.

There are three variants of the DUT. Part number 218898-105 and 218898-107 both employ a short valve stem with identical circuitry, but 218898-107 utilizes the built in accelerometer feature of the asic while 218898-105 does not. (This change in software results in a different ASIC part number in the BOM for the -107 variant.) Part number 218898-106 employs a longer valve stem to use on a different style rim, but is otherwise electrically identical to the other two variants.

If there are any questions regarding the application or testing performed, please contact us at the above address or call (734) 483-4211, or e-mail liepa@umich.edu.

Sincerely,

Valdis V. Liepa
