Re: Certification for TRW '01 RS Transmitter
Model No.: GQ43VT18R
FCC ID: GQ43VT18R
CANADA:

GENERAL DESCRIPTION

The device for which certification is being requested is a fob RKE transmitter designed for a Chrysler automobile RKE system. With a matching receiver, it can be used as a hand-held remote controller to lock and unlock the doors, unlock the trunk, open and close sliding doors or to panic a vehicle. The transmitter/receiver set is sold as an option when the vehicle is purchased.

The transmitter is peanut shaped, with 6 buttons and powered by one button-sized battery. It is activated by pressing any of the buttons. It uses Keeloq coding to prevent code interception.
