Subject: Application for acceptance of class II permissive changes made to
Home security system, FCC ID: GSAMCPIR3000, date of grant: March 24, 1998

Dear gentlemen,

Please find our explanation of class II permissive changes made to Home security
system.

The only difference in electronic schematics between MCPIR3000 (FCC approved)
and K980 MCW (the present application) is: resistor R10 = 2.2K was replaced with
new R10 = 4.7K.

Besides, the PCB layout, the shape of plastic casing and of the lens were changed.

We hope that the materials submitted by us satisfy your requirements.

Many thanks for your assistance and support.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Arick Elshtein", written over a faint, stylized graphic element.
